

CALL FOR PAPERS

Bridging Global Citizenship and Multilingual Competences
16th –17th June, 2023
Graz, Austria

This conference is organised as part of the “Global Citizenship and Multilingual Competences (GCMC)” Erasmus+ project. It aims to bring together teachers, teacher educators, students, scholars, and researchers to present on and critically discuss topics that bridge global citizenship and multilingual competences in different subjects and languages.

We invite presentation proposals (20-minute presentation, followed by a 10-minute discussion) and posters focusing on the topics of global citizenship education and multilingualism in education. Submissions can have a theoretical, empirical, and/or practical focus. We invite contributions that include but are not limited to:

- Global citizenship education (GCE)
- Life skills in education
- Transversal competences
- UNESCO Sustainable Development Goals (SDGs) in education
- Multilingualism
- Multilingual competences in the classroom

The main conference languages are English and German. We welcome abstract submissions in the following languages, which represent those held by the advisory board and conference organisers: English, German, Dutch, Frisian, and Italian. If presenters choose to present in one of those languages, it would be appreciated if the presentation in person could be complemented by a PowerPoint or a handout in English or German.

Plenary speakers

- Wilma Hauser (PH Steiermark, Austria) & Sonja Babić (University of Graz, Austria)
Transformative Bildung und Global Citizenship Education
- Pia Resnik (KPH Vienna/Krems and University of Vienna)
GCE and multilingualism in teacher education
